XZDEC(1)

**NOTES**

Use **xz(1)** instead of **xzdec** or **lzmadec** for normal everyday use. **xzdec** or **lzmadec** are meant only for situations where it is important to have a smaller decompressor than the full-featured **xz(1)**.

**xzdec** and **lzmadec** ~~are smaller~~ <sup>analyr tht s(mal.)-585.846(Tthesize chanbe reducede fr thr by dropping -fe-S)]TJ-</sup>
